DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claim 1, drawn to a method for the continuous detection of thermodynamic hydrate formation conditions at any point in a pipe carrying a multiphase mixture of petroleum fluids, classified in class 702, subclass 136.
- II. Claims 2 – 5, drawn to a method for the continuous control of hydrate formation at any point in a pipe carrying a multiphase mixture of petroleum fluids, classified in class 700, subclass 266.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility, such as a method for the continuous detection of thermodynamic hydrate formation conditions at any point in a pipe carrying a multiphase mixture of petroleum fluids, excluding the application of measures intended to reduce or eliminate hydrate formation. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

A telephone call was made to Alan E. Schiavelli on 11/5/2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
